Capabilities Statement

In addition to offering a broad range of inorganic compounds that are regularly produced, Noah Chemicals also offers one of the most comprehensive lists of rare and less-common inorganic chemicals in the world, with new chemicals added on a regular basis. Noah has become one of the largest domestic producers of custom compounds, used for everything from research to manufacturing

Noah takes pride in utilizing the most modern methods of production and analysis. Our chemicals and metals are available in various purities and particle sizes and can be supplied in laboratory and/or bulk quantities. We also offer custom synthesis and have technical staff available to work with customers on specific requirements.

HIGH PURITY CHEMICALS FOR RESEARCH AND PRODUCTION

Core Competencies / Differentiators

- Strong QMS in place which provides for good quality control of products shipped to customers, providing traceability of all products from the time the raw materials are received at our facility until the final product ships to the customer.
- Superior sales department provides excellent customer service, working with each customer to ensure that all requirements of their orders are met.
- Custom quantities / packaging to meet customer's requirements
- Leader in creating custom chemical products used in new emerging technologies
- Extensive catalog of thousands of inorganic chemicals
- Custom manufacturing to customers formulations /specifications
- Offer consulting services and technical information assistance during the development process
- Outstanding OSHA 300 record
- Core management has over 100 years combined experience in specialty inorganic chemicals

Company Snapshot

Address : 1 Noah Park, San Antonio, Texas, 78249

Phone: 1.210.691.2000 Fax: 1.210.691.2600

General Product Listing

We are driven by creating solutions that deliver results for your business and for your customers.

Noah Chemicals can scale up from R&D laboratory quantities to full production quantities as needed. Our products are manufactured in various purities ranging from 99 percent pure up to 99.9999+ percent pure, in addition to national specifications for ACS, USP/NF, and FCC. All of our chemical products are custom manufactured according to precise specifications.

Brief Product Listing Overview

Complete List of Products available on link below

Additionally we specialize in Custom Chemicals

Aluminum Nitrate	Iron Nitrate	Potassium Nitrite
Aluminum Potassium Sulfate	Iron Sulfate	Potassium Oxalate
Aluminum Sulfate	Iron Chloride	Potassium Permanganate
Ammonium Acetate	Lanthanum Chloride	Potassium Persulfate
Ammonium Bromide	Lead Chromate	Potassium Phosphate
Ammonium Carbonate	Lead Nitrate	Potassium Sodium Tartrate
Ammonium Chloride	Lead Oxide	Potassium Sulfate
Ammonium Citrate	Lead Acetate	Potassium Thiocyanate
Ammonium Fluoride	Lead Carbonate	Silver Nitrate
Ammonium Iodide	Lead Subacetate	Silver Sulfate
Ammonium Iron Sulfate	Lithium Carbonate	Sodium Acetate
Ammonium Metavanadate	Lithium Chloride	Sodium Arsenate
Ammonium Molybdate	Lithium Hydroxide	Sodium Bicarbonate
Ammonium Nitrate	Magnesium Acetate	Sodium Bromide
Ammonium Oxalate	Magnesium Chloride	Sodium Carbonate
Ammonium Phosphate	Magnesium Nitrate	Sodium Chloride
Ammonium Sulfate	Magnesium Oxide	Sodium Citrate
Ammonium Thiocyanate	Magnesium Sulfate	Sodium Cobaltinitrite
Antimony Potassium Tartrate	Manganese Chloride	Sodium Cyanide
Arsenic Oxide	Manganese Sulfate	Sodium
Barium Acetate	Mercury Acetate	Diethyldithiocarbamate
Barium Carbonate	Mercury Bromide	Sodium Fluoride
Barium Chloride	Mercury Chloride	Sodium Formate
Barium Hydroxide	Mercury Iodide	Sodium Hydroxide
Barium Nitrate	Mercury Nitrate	Sodium Iodide
Bismuth (III) Nitrate	Mercury Oxide	Sodium Metaperiodate
Boric Acid	Molybdenum Oxide	Sodium Molybdate
Cadmium Chloride	Molybdic Acid	Sodium Nitrate
Cadmium Sulfate	Nickel Sulfate	Sodium Nitrite
Calcium Carbonate	Oxalic Acid	Sodium Oxalate
Calcium Chloride	Phosphomolybdic Acid	Sodium Peroxide
Calcium Hydroxide	Phosphoric Acid	Sodium Phosphate
Calcium Nitrate	Potassium Acetate	Sodium Pyrophosphate
Calcium Sulfate	Potassium Bicarbonate	Sodium Sulfate
Cerium Ammonium Nitrate	Potassium Bromate	Sodium Sulfide
Cerium Ammonium Sulfate	Potassium Bromide	Sodium Sulfite
Chromium Oxide	Potassium Carbonate	Sodium Tartrate
Chromium Potassium Sulfate	Potassium Chlorate	Sodium Tetraborate
Cobalt Chloride	Potassium Chloride	Sodium Thiosulfate
Cobalt Nitrate	Potassium Chromate	Sodium Tungstate
Cobalt Acetate	Potassium Ferricyanide	Strontium Chloride
Copper Acetate	Potassium Ferrocyanide	Strontium Nitrate
Copper Chloride	Potassium Fluoride	Tin Chloride
Copper Nitrate	Potassium Hydrogen Sulfate	Zinc Acetate
Copper Oxide	Potassium Hydroxide	Zinc Chloride
Copper Sulfate	Potassium Iodate	Zinc Oxide
Ethylenediaminetetraacetic Acid	Potassium Iodide	Zinc Sulfate
	Potassium Nitrate	

NOAH
CHEMICALS

Our Commitment To You

We call it the Noah Standard®

Noah Chemicals has an industry-wide reputation for superior quality and customer service forged over four decades of experience.

Trusted Partners | Innovative Expertise | Results Driven | Accountability | Quality
These principles are consistent with scientific practices and are the foundation for our operational excellence.

Our industry-recognized experts deliver a multitude of specialties and talents, all of which further our goal of supplying high-purity chemicals that meet or exceed our customers' requirements. At Noah, customer experience and satisfaction are our top priorities.

Experience the Noah Standard®. Contact us today.
